

**We tried to get these guys to guard your computer while you were away but...**

**They were busy holding down this tank!!**

**Lock your screen when you step away from your computer. It's easy, and you don't need all this high-tech equipment to do it!**

Use a **screen lock** to protect your:

- instant messages
- passwords
- address book
- identity
- Access+ information
- email
- online banking information
- files
